### 2019 Monthly Parole Revocation Outcomes

2019	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Avg	TOTAL
Revoked	56	38	70	55									55	219
Reparoled	44	30	52	43									42	169
Rescind	2	1	0	2									2	5
Auto Revoked	8	0	6	0									7	14
Auto Rescind	1	1	4	1									2	7
Reinstate	5	6	6	12									7	29

The revocation process begins when an offender on parole/special parole violates the conditions of their release.

- "Revoked" is the number of offenders whose violation(s) was serious enough that their supervision in the community was terminated; they will serve out the remainder of their sentence in prison.
- "Reparoled" is the number of offenders who, after violating their conditions, and being remanded to custody, were released to the community after having served an appropriate amount of time in prison as a consequence of the violation.
- "Rescind" is the number of offenders who, having been voted to parole, and not yet released to the community, have received a new disciplinary report, or have otherwise violated the conditions set forth by the Board. Their parole is either delayed, or revoked entirely, depending on the Board's decision.
- "Auto Revoked" & "Auto Rescind" are the same as above, however, loss of parole privileges was the result of the offender having picked up new charges, **automatically** revoking or rescinding their parole/special parole.
- "Reinstate" is the number of offenders who have been accused of violating the conditions of their release, but the Board has found either no evidence of a violation, or that the evidence/violation is not serious enough to warrant further incarceration. They are released back to parole/special parole supervision in the community.
